What Your Chatbot Does

Your RingCatch chatbot is built for Arctic Air HVAC and configured for the HVAC industry. It answers common customer questions 24/7 — nights, weekends, and holidays — so your team wakes up to booked appointments, not missed calls.

Pre-Loaded FAQ Responses

Q: Do you offer emergency services?

A: Yes, Arctic Air HVAC provides 24/7 emergency heating and cooling repairs throughout Charlotte.

Q: What areas do you serve?

A: We serve the entire Charlotte, NC metro area and surrounding communities.

Q: Are your technicians licensed and insured?

A: Yes, all of our technicians are fully licensed, bonded, and insured for your protection.

Q: Do you offer seasonal maintenance plans?

A: Yes, we offer comprehensive maintenance agreements to optimize your system's efficiency and lifespan.

Q: Do you service both residential and commercial clients?

A: Yes, Arctic Air HVAC provides expert heating and air conditioning services for both homes and businesses.

Q: How much does a new HVAC installation cost?

A: Costs vary depending on your specific needs; we provide free, transparent estimates for all new installations.

Q: Can you help improve my indoor air quality?

A: Yes, we offer various air purification solutions, including advanced filtration and UV light systems.

Q: Do you provide free estimates for repairs?

A: We provide detailed, upfront estimates following a thorough inspection of your HVAC system.
